MICROPLATES ahn myPlate®

•The microplates, without skirt, fit on the majority of thermal cyclers and can easily be disconnected into 16, 24, 32 or 48 holes

• The great clearness of the holes allows a visual reading in qPCR from below

• Available in 0,1 and 0,2ml, without skirt, reinforced half-skirt or not

The V form of the lower part allows an easy sample retrieval
With the " **low-binding" quality,** the proteins do not adhere on the holes' internal wall
