AHN myTip® tips

A design and adapted premum specifications for every of your applications

Without DNAse | Without RNAse | Without human DNA | Exempt inhibitors PCR | Without endotoxins | Without heavy metals | Autoclavable

ahn®

LABELIANS exclusivity

Collar

Studied to facilitate the attachment of the cone and its ejection

Easy handling

Hydrophobic filter in polyethylene

Controlled pores' dimensions to act like a barrier against aerosols

Micropipette protection from possible contaminants
Cross contamination risk reduced

Graduations Volumetric markers

Double visual volume control
Minimise the risk of errors

Standard tips myTIP AHN®

Made from additives free virgin polypropylene

Without contaminants

Teaching

LOW RETENTION tips AHN myTIP®

Hydrophobic surfce which decreased samples' residues or reagents on the wall
Perfectly adapted quality for viscous or precious samples
Easy handling
Without contaminants
Analysis reproducilbiity
Reduces the loss of expensive reagents

BULK IN BAG

Economic

Art. TIP...V

RACK

For an optimal work comfort

Sterile version :
Without filter: Art. TIP...RS
With filter : Art. TIP...FRS

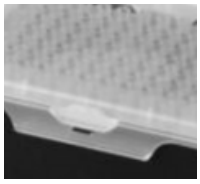
Non sterile version :
Without filter : Art. TIP...R
With filter : Art. TIP...FR

Studied packaging for a space saving
Storage optimization

Available in non sterile and **sterile by Beta irradiation (SAL 10-6) versions**

Cones without filter in bag for your basic applications

Ergonomic opening system



One-handed handling

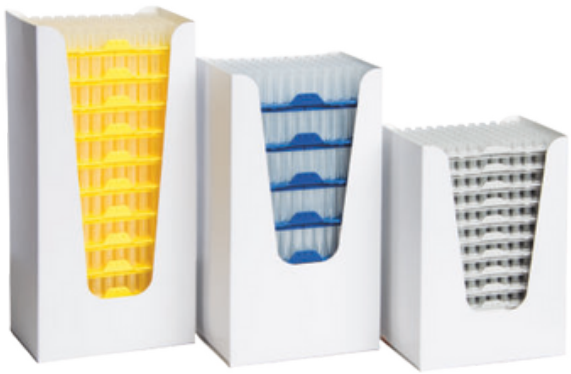
Notching system on the lid

Good stabilization of stacked racks

REFILL

Performant refill system

Without filter cones



Art. TIP...REC

Replace plastic by cardboard
Think ecologic

Ecologic and economic system !

75% space saving
Optimization of storage and wastes

Time saving
Quick filling of racks (reusable empty box)

Colored support depending on the cones' capacity

Simple and quick visual identification Time saving

Easily resealable packaging

Guarantees the tips non-contamination

Art. TIP...REC

Recycable cardboard packaging for a weight reduction

Decrease of wastes' weight

Fast and simple system !

1 Open the refill by sliding up the outer packing

2 Prepare an empty box adapted to the capacity of the tips to be packaged in rack

Remove the present grid in the empty box

Grab the first tips grid and clip it on the box

It is possible o reuse the boxes form the racks

3 Once the tips are correctly placed in the box, close the hinged cover

4 Clip the cover to guarantee the closure and avoid any reversal of the box

COMPATIBILITY TIPS / MICROPIPETTES

For molecular biology, diagnosis and research applications
